SECTION 1: PRODUCT AND COMPANY IDENTIFICATION

Product identifier
Chemical Name: Mixture
CAS No.: Mixture
Trade Name(s): Cold Patch Asphalt / Asphalt Repair Mix / Cold Mix Asphalt Pavement

Relevant identified uses of the substance or mixture and uses advised against
Identified Use(s): Asphalt Pavement Repair
Uses Advised Against: None.

Details of the supplier of the safety data sheet
Company Identification: O&G Industries
112 Wall Street
Torrington, Connecticut 06790

Telephone: (860) 489-9261

Emergency telephone number
Emergency Phone No.: Not classified as dangerous for supply/use. Please contact the supplier above during normal business hours.

SECTION 2: HAZARDS IDENTIFICATION

Classification of the substance or mixture
OSHA HCS (29 CFR 1910.1200) / GHS Classification: Skin Irrit. 2; Carc. 1B; STOT RE 2

Label elements
Hazard Symbol

Signal Word(s)
DANGER

Hazard Statement(s)
Causes skin irritation.
May cause cancer.
May cause damage to organs through prolonged or repeated exposure: blood, thymus, liver, spleen, bone marrow.

Precautionary Statement(s)
Obtain special instructions before use.
Do not handle until all safety precautions have been read and understood.
Wear protective gloves/protective clothing/eye protection/face protection.
Wash hands and exposed skin after use.
COLD PATCH (CLASS 5)

Other hazards

May cause eye irritation. May cause respiratory irritation.
Prolonged exposure to fumes without adequate ventilation to fumes may cause upper respiratory irritation (nose & throat).
Skin contact may increase susceptibility to sunburn.
Poisonous hydrogen sulfide gas can accumulate in the head-space of containers of certain asphalt products.
Mechanical disruption (e.g., milling, cutting, chipping) of cured asphalt pavement may release crystalline silica dust from the aggregate.

Additional Information

Avoid prolonged exposure to (dust/fume/gas/mist/vapors/spray) without adequate ventilation.

SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

<table>
<thead>

</tr>
</tbody>
</table>

^Contains: <0.05% of 3 - 7 ring Polycyclic Aromatic Hydrocarbons (PAHs).
**Contains: <0.2% benzene (CAS No. 71-43-2).

Other Substances in the product which may present a health or environmental hazard, or which have been assigned occupational exposure limits, are detailed below. Please see Section 8 of SDS for more details.
- Contains: <0.1% airborne crystalline silica (inherent in aggregate) and <0.1% hydrogen sulfide.
- Hydrogen sulfide gas can accumulate in the head space of containers of certain asphalt products.
- Heated product releases asphalt fume.

Additional Information - None

SECTION 4: FIRST AID MEASURES

Description of first aid measures

Inhalation
Not normally required. Move person to fresh air. Apply artificial respiration if necessary. If symptoms persist, obtain medical attention.

Skin Contact
Wash with plenty of water. If skin irritation or rash occurs: Get medical advice/attention. Take off contaminated clothing and wash before reuse.

Eye Contact
Flush eyes with water for at least 15 minutes while holding eyelids open. Remove contact lenses, if present and easy to do. Continue rinsing. If irritation develops and persists, get medical attention.

Ingestion
Not normally required. Do not induce vomiting. Do not give anything by mouth to an unconscious person. Get medical advice/attention if you feel unwell.

Most important symptoms and effects, both acute and delayed
None known
COLD PATCH (CLASS 5)

Indication of any immediate medical attention and special treatment needed
None known

SECTION 5: FIRE-FIGHTING MEASURES

Extinguishing Media
- Suitable Extinguishing Media
  Extinguish with carbon dioxide, dry chemical, foam or water spray.
- Unsuitable Extinguishing Media
  None anticipated.

Special hazards arising from the substance or mixture
Combustion causes toxic fumes. Combustion products: Carbon monoxide, Carbon dioxide, Nitrogen oxides, Sulfur oxides

Advice for fire-fighters
A self contained breathing apparatus and suitable protective clothing should be worn in fire conditions.

SECTION 6: ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures
Avoid contact with skin and eyes.

Environmental precautions
Not normally required.

Methods and material for containment and cleaning up
Allow product to cool/solidify and pick up as a solid.

Reference to other sections
None

Additional Information
None.

SECTION 7: HANDLING AND STORAGE

Precautions for safe handling
Avoid contact with skin and eyes.

Conditions for safe storage, including any incompatibilities
- Storage temperature
  Store at temperatures not exceeding the product’s flash point.
- Incompatible materials
  Strong oxidizing agents.

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

Control parameters

Occupational Exposure Limits

(1) Inhalable benzene-soluble fraction; (R) Respirable fraction; * Suspected Human Carcinogen; * OSHA Carcinogen - employers must ensure compliance with OSHA 29 CFR 1926.1128 - Benzene and 1926.1153 - Respirable Crystalline Silica, as applicable.; TWA = 8 hour time-weighted average; STEL = Short Term Exposure Limit.
COLD PATCH (CLASS 5)

Recommended monitoring method
NIOSH 5042 (Asphalt Fume), OSHA Method 1005 (Benzene), OSHA ID-142 (Crystalline Silica), Electrochemical sensor (hydrogen sulfide).

Exposure controls
Appropriate engineering controls
Use only outdoors or in a well-ventilated area.

Personal protection equipment
Eye/face protection
The following to be used as necessary: Safety Glasses

Skin protection (Hand protection/ Other)
Impervious gloves and boots. Check with protective equipment manufacturer's data.

Respiratory protection
In case of inadequate ventilation wear respiratory protection. Use NIOSH approved respiratory protection. Air-purifying respirator with combination organic vapor cartridge / particulate filter may be sufficient. Check with protective equipment manufacturer's data.

Thermal hazards
Use gloves with insulation for thermal protection, when needed.

Environmental Exposure Controls
Do not discharge waste and/or cleaning water via public sewer system. Ensure waste is collected and contained.

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

Information on basic physical and chemical properties
Appearance
Solid
Color.
Dark brown / Black
Odor
Asphalt / Bitumen / Petroleum
Odor Threshold (ppm) Not available.
ph (Value) Not available.
Melting Point (°C) / Freezing Point (°C) Not available.
Boiling point/boiling range (°C): > 371 (>700 °F)
Flash Point (°C) > 232 (> 450 °F)
Evaporation Rate Not available.
Flammability (solid, gas) Not applicable.
Explosive Limit Ranges Not applicable.
Vapor pressure (Pascal) Not determined.
Vapor Density (Air=1) Not determined.
Density (g/ml) 2.2 - 2.7
Solubility (Water) Negligible
Solubility (Other) Not known
Partition Coefficient (n-Octanol/water) Not available.
Auto Ignition Point (°C) Not available.
Decomposition Temperature (°C) Not available.
Kinematic Viscosity (cSt) @ 40°C Not available.
Explosive properties Not explosive.
Oxidizing properties Not oxidizing.
Other information Not available.
SECTION 10: STABILITY AND REACTIVITY

Reactivity
Stable under normal conditions.

Chemical stability
Stable.

Possibility of hazardous reactions
May react violently with: Strong oxidizing agents

Conditions to avoid
Incompatible materials
Oxidizers

Incompatible materials
Combustion causes toxic fumes. Combustion products: Carbon monoxide, Carbon dioxide, Nitrogen oxides, Sulfur oxides

SECTION 11: TOXICOLOGICAL INFORMATION

Exposure routes: Inhalation, Skin Contact, Eye Contact

Information on toxicological effects
Acute toxicity
LD50 (rat): >5000 mg/kg bw
LD50 (dermal): >2000 mg/kg bw
LC50 (inhalation, fume): >94.4 mg/m³

Irritation/Corrosivity
Causes skin irritation. May cause eye irritation. May cause respiratory irritation.

Sensitization
Not to be expected.

Repeated dose toxicity
May cause damage to organs through prolonged or repeated exposure: blood, thymus, liver, spleen, bone marrow.

Carcinogenicity
May cause cancer.

</tbody>
</table>

Mutagenicity
Contains: Benzene (CAS# 71-43-2). See note below.

Reproductive toxicity
Not to be expected.

Other information
* IARC (2013, volume 103) identifies that "occupational exposures to straight-run bitumens and their emissions during road paving are possibly carcinogenic to humans (Group 2B)." However, classification as a carcinogen under OSHA 29 CFR 1910.1200 is not warranted given the absence of positive cancer findings in human epidemiological studies and in cancer studies with laboratory animals when exposed dermally or by inhalation to asphalt products or fume condensates that are typical of road paving applications. IARC (2013, volume 103) also identifies that "occupational exposures to oxidized bitumens and their emissions during roofing are probably carcinogenic to humans (Group 2A)." Roofing shingles, which are considered an article under OSHA 29 CFR 1910.1200, are sometimes recycled into road paving asphalt mix. Emissions from oxidized bitumen, e.g., from shingles, at road paving temperatures are not expected to be qualitatively different than emissions from straight-run bitumens, and therefore would not warrant a carcinogen classification under OSHA 29 CFR 1910.1200. Contains crystalline silica, an OSHA-regulated carcinogen, inherent in the aggregate. ACGIH classifies crystalline silica as a Suspected Human Carcinogen (A2).

Other information

SECTION 12: ECOLOGICAL INFORMATION

Ecotoxicity
Short term
LL50 (48 hour): >100 mg/l (Fish)
LL50 (48 hour): >100 mg/L (Aquatic Invertebrates)
EL50 (48 hour): >100 mg/L (Aquatic Plants)
COLD PATCH (CLASS 5)

Long Term Persistence and degradability 
The product is poorly biodegradable.
Bioaccumulative potential 
The product has low potential for bioaccumulation.
Mobility in soil 
The product has low mobility in soil.
Results of PBT and vPvB assessment 
Not classified as PBT or vPvB.
Other adverse effects 
None known.

SECTION 13: DISPOSAL CONSIDERATIONS

Waste treatment methods 
Disposal should be in accordance with local, state or national legislation. Consult this asphalt producer, permitted waste disposal contractor or the local authority for advice on waste disposal or recycling options.

Additional Information 
None known.

SECTION 14: TRANSPORT INFORMATION

Ground or Water Domestic Voyage (DOT): 
Not regulated when transported below 240°C (464 °F).

SECTION 15: REGULATORY INFORMATION

Safety, health and environmental regulations/legislation specific for the substance or mixture:

TSCA (Toxic Substance Control Act) - Inventory Status: All components listed or polymer exempt.

RCRA Hazardous Waste Number (40 CFR 261.33): None

US RCRA Hazard Class: Not applicable.

Designated Hazardous Substances and Reportable Quantities (40 CFR 302.4):
